NO COMMISSION ON DRAFT PRICE

National Board Rules Manager Ort Cannot Collect From Canadian Club-He Had Contract For Commission on Sales -Draft is Not a Sale in Opinion of Board.

National Raseball Commission today promulested a finding and a notice to all national agreement clubs. The commission upheld the national board in the latter's ruling that player and manager George R. Ort, of the St. Thomas club, of the Canadian league, was not entitled to 15 percent of the money obtained through the drafting of players. Ort had a contract calling for 15 percent of all money realized by the St. Thomas club through the sale of players, but both the national board and the commission half tional board and the commission held that there was a wide difference between the sale of a player and the releasing of the played by draft, The notice follows:

"Section 18 of the agreement with the baseball players' fraternity reads as follows: "Before a major league player shall be released outright or under an ap-tional agreement to ClassA, or a lower classification, his services shall first be tendered to all Class AA clubs at a price not to exceed \$7501. If he be a

drafted player the club from which he is drafted shall have prior claim to all other clubs in its classification. "There seems to be a misundering as to the exact meaning of this particular

"When a major league club makes application for inter-league waivers it should at the same time notify the should at the same time notify the president of the league of which it is member whether the player will be released unconditionally, outright or under an optional agreement if walvers are obtained. An outright release is construed to mean the player's transfer from one club to another, either with or without a consideration either with or without a consideration. either with or without a consideration and without the retention of the right to recall him. In such case the player

must first be tendered to Class AA, and A clubs at a price not to exceed those stipulated in section 18. "If it is the intention of the major league club to release the player under an optional agreement, then the amount of the option price shall be not less than \$300 as stipulated in rule 13 of the commission and not more than the respective amounts pre-scribed in section 18 of the fraternity

agreement.
"If the major league club and the claiming minor league club cannot agree on the optional price, the presidents of the leagues of the respective clubs shall determine the considerations of the leagues of the respective clubs shall determine the considerations. tion, provided, however, it shall not exceed the amounts fixed in section

18, above quoted. "Section 18 does not change the system of returning drafted players as prescribed in section 9, Article VI, of the national agreement and regulated by rule 32 of the comission, in any respect.
"A drafted player who has not been

YACHT TO DEFEND AMERICA'S

CUP NAMED RESOLUTE Announced by Secretary Cormack of New York Yacht Club,

New York, March 25.—Official an-nouncement of the selection of the name Resolute as the title of the New York Yacht club flag officers syndi-cate America's cup defense candidate was made tonight by G. A. Cormack, secretary of the syndicate. The yacht now building at the Herreshoff yard, Bristol, R. L. for the syndicate, consisting of Henry Walters, Arthur Curtiss James, J. P. Morgan, George F. Baker, Jr., Cornelius Vanderbilt and F. G. Bourne is the second of the three defending candidates to be named. The Tri-City yacht has already been named Defiance, leaving the Cochran boat the only one of the trio as yet undesignated Neither A. S. Cochran, the owner; Wil-liam Gardner, the designer, or F. D. Lawley has intimated that a title has

been selected.

In the selection of the names Reso-In the selection of the names Resolute and Deflance the adherence to the eight letter designation is again evidenced as was the case in the successful cup defender of past years, including the Reliance, Columbia, Defender and Vigilant. Yachtsmen as a rule are inclined to laugh at the superstition of luck in eight-letter name cup winners and the twelve defending yachts, a majority have borne names containing eight letters,

FINANCIAL AND COMMERCIAL

A BEARISH DAY.

Stock List as a Whole Offered Stubborn Resistance.

New York, March 25.—Confidence of the bulls was shaken by the bearish news of today. Sentiment swung to-ward the short side, and a few stocks directly affected by the day's developments were sent tumbling, but the list as a whole offered stubborn resisttance. Speculative selling failed to provoke widespread liquidation, and al-though the general movement was downward the average loss was not se-

Bearish views regarding the railroad list, fostered for a long time by de-clining earnings, were accentuated by the day's news. Pittsburg, Cincinnati, Chicago and St. Louis cut the divi-dends on the common and preferred. The common stock broke several points at a time to 70, a drop of 13 points from the opening. Later it recovered part of its loss. Pennsylvania, whose returns on its holdings of the stock are reduced at the rate of nearly \$700,000 a year, was hammered down about two points. Atchison weakened on an expoints. Atchison weakened on an exceptionally poor statement for February. Gross earnings declined \$1,162,000, and operating income \$595,000. For eight months of the facal year Atchison's decrease in operating income is \$2,802,000. Northern Pacific's February earnings were bearish. Gross decrease was given as \$389,000 and net as \$250,000.

Industrial stocks fared scarcely bet-ter in the day's developments. The weekly reviews by steel trade authori-ties were distinctly pessimistic. Buying at present was represented as extreme ly light, and it was said that unless conditions improve some—of which no indications are discernible—many mills will be compelled to close or curtail operations. Corn Product issues continued to reflect the gloomy prophecies of President Benford, of the effect on the shares of a government victory in the dissolution suit. Smelting's annual report showed a decrease in net of \$1, 542,000.

In the bond market the movement was downward. Rock Island collaterals weakened under renewed liquidation. Total sales, par vaine, \$1,935,000. United States bonds were unchanged on call.

Hamilton delivered a eulogy upon the late Bishops Bowman and Walden, the former of whom was chankeln of congress durof whom was chaplain of congress dur-ing the Civil war and a friend of Abraham Lincoln.

Dr. Hingsley, who spoke briefly Mon-day evening, addressed the conference in regard to the conference claimants, the subject of last night's session, urging action by the conference on the matter of increasing the funds available for the purpose.

Women in Session.

During the afternoon, while vari-ous committees were in session, the women present held a meeting to con-sider deaconess work, Rev. J. Planking Cooper of Brockton, Mass., prescing. Mrs. George E. Wilcox of this city rendered a soio during the meeting which was received appreciatively.
Rev. Daniel W. Howell of St. Johnsbury, Vt., delivered the address at this gathering, speaking of the splendid work done for the sick and the needy by the deaconesses of the olden days. In America, he said, the movement started about 1836, and was in other denominations. The Methodists took up the work later, but there are many deaconesses at present in the Methdeaconesses at present in the Meth-odist church. Their work was applied, practical Christianity, doing the house-work of sick mothers, washing the

work of sick mothers, washing the floors, and tasks of that nature, like the nuns of the Catholic church. All the world, Catholic and Protestant, agree upon the beauty and glory of the saintly life. Their work was helpful to the pastors and in many cases work which the pastors could not do as well as they Held in the Open Air.

At 7 o'clock an open air meeting wa held at the Main street end of th footbridge over the railroad tracks and was well attended. Rev. Gilbert E. Mossman of Taunton, Mass., and Rev. James M. Potter of Bridgeton, R. I were the speakers.

Temperance Was the Topic.

The meeting at 4 in the afternoon was a temperance meeting, at which the principal speaker was Dr. Charence True Wilson of Topeka, Kansas, secre-tary of the M. E. Temperance society. Dr. Wilson comes from a prohibition state and he delivered a stirring talk upon the drink habit and the cause of prohibition, during which he predicted that there was a greater probability that the constitutional amendment prohibiting the manufacture or sale of liquor in this country had a better chance to pass right now than had the Webb bill before the date of its pas-

Dr. Wilson sald in part: "If it is wrong for the individual to drink in The Federals have made heavy in-roads on Ganzell's team. It is said and to sell them, how can it be right eight o fhis old men have jumped to for the community? This is the thought a conviction. When a man starts down hill, he finds everything greased for the occasion," said the speaker, who told the story of one man who went down hill in Maine, and how his downfall led to the three and one-half years work of Neal Dow, which brought about prohibition in that state.

Making "Dry" States Into "Wet."

The history of the prohibition move-ment was traced by Dr. Wilson from ment was traced by Dr. Wilson from its inception to the present, showing how one state after another felt the wave of reform, until 17 out of 33 had adopted laws restraining the sale of liquor. Then came the Civil war, and while the men of the country went to the front, the brewers and liquor dealers stayed behind to change the "dry" states to "wet" ones. The speaker made the statement that not a single brewer or distiller volunteered to go to the front. "For fifty years," he said, "this statement has been made in the press and from the pulpit and it has never been contradicted."

Dr. Wilson reviewed the work which had been done since 1865, when but three "dry" states remained, paying a compilment to the members of the prohibition party, whom he said had for 45 years been without an office, kept their banner affoat and been true kept their banner afloat and been true to an ideal. He also spoke of the W. C. T. U. movement and of the antisaloon league movement, and made a plea for broadness of vision, that all these forces might work together in a common cause. The speaker also said that amendments were pending in most of the Pacific states and that it was not a vain hope that the cause would make a clean sweep of the Pacific coast before the Panama canal brought people from all the lands of brought people from all the lands of the earth to its shores.

The former bishop of India began his address by saying he would endeavor to present what seems to be the general situation in the work in which the Board of Missions is engaged, taking conditions in Latin America, in the stronghold of Mohammedanism, in India, in China and East Asia, and making an effort to provoke interest where ing an effort to provoke interest where it has been alas too low.

Solution for Mexico.

Solution for Mexico.

He said in part: "Every one of you who looked at a newspaper this morninf looked first, I venture to say, to see what was doing in Mexico, our nearest neighbor. What was the first impression in your minds? It is my impression that President Wilson has no more difficult task before him than is presented by the exceedingly tangled matter of Mexico. No matter what the immediate outcome, may be we will always have an unquiet neighbor there until this thing happens, not the recognition of this man or that man, but the final solution is the making of the teachings of the Christian church the common property of the Mexican people. If you are going to build a democracy you must have foundations. That little handful of Methodist Episcopal schools in which five thousand boys and giris are taught the doctrines of Christ is a better assurance of a satisfactory future for Mexico than all the soldiers that can e hilarious activities of the outlaws surance of a satisfactory future for we not drawn a snicker from Garry Mexico than all the soldiers that can he paured ever the line. The European people discounted the opening of the Panama canal. They said the railroad corporations had America by the throat. The only thing which is as funny as hearing Americans discuss Europe is hearing Europeans discuss America—but in the elegant language of Dooley: "Glory be! It dont," although we have not as yet It'dont," although we have not as yet sensed its effect.

Great South America.

Our business is to get acquainted with the words South America. When we meet foreigners we are apt to say "You've a nice little country here." But when you go to South America don't try any of those tricks, for the boot is on the other leg. You can put the whole of the United States into Brazil and leave two Texases over, and acre for acre it is better watered and better for agriculture. There is room there to find new roomers yet, but there is never room enough to lose an ex-president.

Then Argentina exports more corn and more beef than the United States; the climate is ideal, the soil rich, the river basins numerous, to say nothing of its minerals. Then there's Chile, 2,700 miles of a coast line, fine lands, mineral riches—why, in one spot they have a mountain of iron ore, take it up with a scoop shovel. It is possi-tively beyond the imagination to see the future of Chile.

Illiterate and Illegitimate Yet in Brazii, with its wonderful op-portunities, 85 per cent. are illiterate, over 50 per cent. illegitimate. In Ar-gentina 50 per cent. illiterate and more illegitimate. In Colombia it is hard to tell. In the great university at Buenos Ayres it is difficult to find a single pro-

fessor who doesn't openly sneer at re-vealed religion. Agnosticism is deep-ening into infidelity everywhere. Must Furnish Moralizing Influences. The Monroe doctrine is practically a "big brother" attitude. When we keep the German flag out of Brazil, however, we keep out also the moralizing influences that accompany it. The two most luminous spots in South Amreica are British and Dutch Guiana, from a religious and civilized standpoint. The thing the big brother should do is to take into his councils some of the rest of the family. But that is not what I am coming to. What I am coming to is this: We owe it to South American republics to furnish them with the moralizing influences without which

they will not be able to take the place they should. Our forces in South America are be ing splendidly led. The Panama ca-nal forces rethinking over the South American situation. And when South American situation. And when South America becomes evangelized and joins with us we'll be facing Africa on one side and Asia on the other, and the mighty Apostle of God will have been born on this great Pan-American con-tinent."

Around the Mediterranean.

Dr. Oldham then reviewed conditions around the Mediterranean, saying that greater strides had been made in the greater strides had been made in the last ten years than at any time since Paul, and stating that the Mohammedan religion, the only religion which is not non-Christian, but anti-Christian, is now ready to sit down and talk it over. The speaker told briefly but feelingly of conditions in India and China, and concluded his address with the remark that "the greatest day of God that ever was born is just at the horizon, and it is about 5 in the morning. presently the dawn will come, and there will be light, which will bathe both the hemispheres. That day can be hastened or retarded by the fidelity or lack of fidelity of God's people."
